A STUDENT-CENTERED APPROACH
TO QUALITY EDUCATION

The Bethlehem Area School District (BASD) is the 6th largest district in the Commonwealth of Pennsylvania, with an enrollment of nearly 13,000 students across 22 schools.

The BASD’s size makes it possible to offer and continually expand opportunities for students.

The district is incredibly proud of its bright, compassionate, diverse students who bring a wide range of life experiences to the classroom.

From the first day of elementary school until high school graduation, the BASD fosters rich intellectual, emotional, and artistic growth in its students. The district’s forward-thinking approach to education draws on the best practices in the instruction of literacy, mathematics, critical thinking, and problem solving.

The BASD values child-centered instruction, hands-on learning, and opportunities for collaborative work. A quality education focuses on the development of the whole person. The BASD’s programs in the arts and wide array of extracurricular activities help students grow into well-rounded adults.

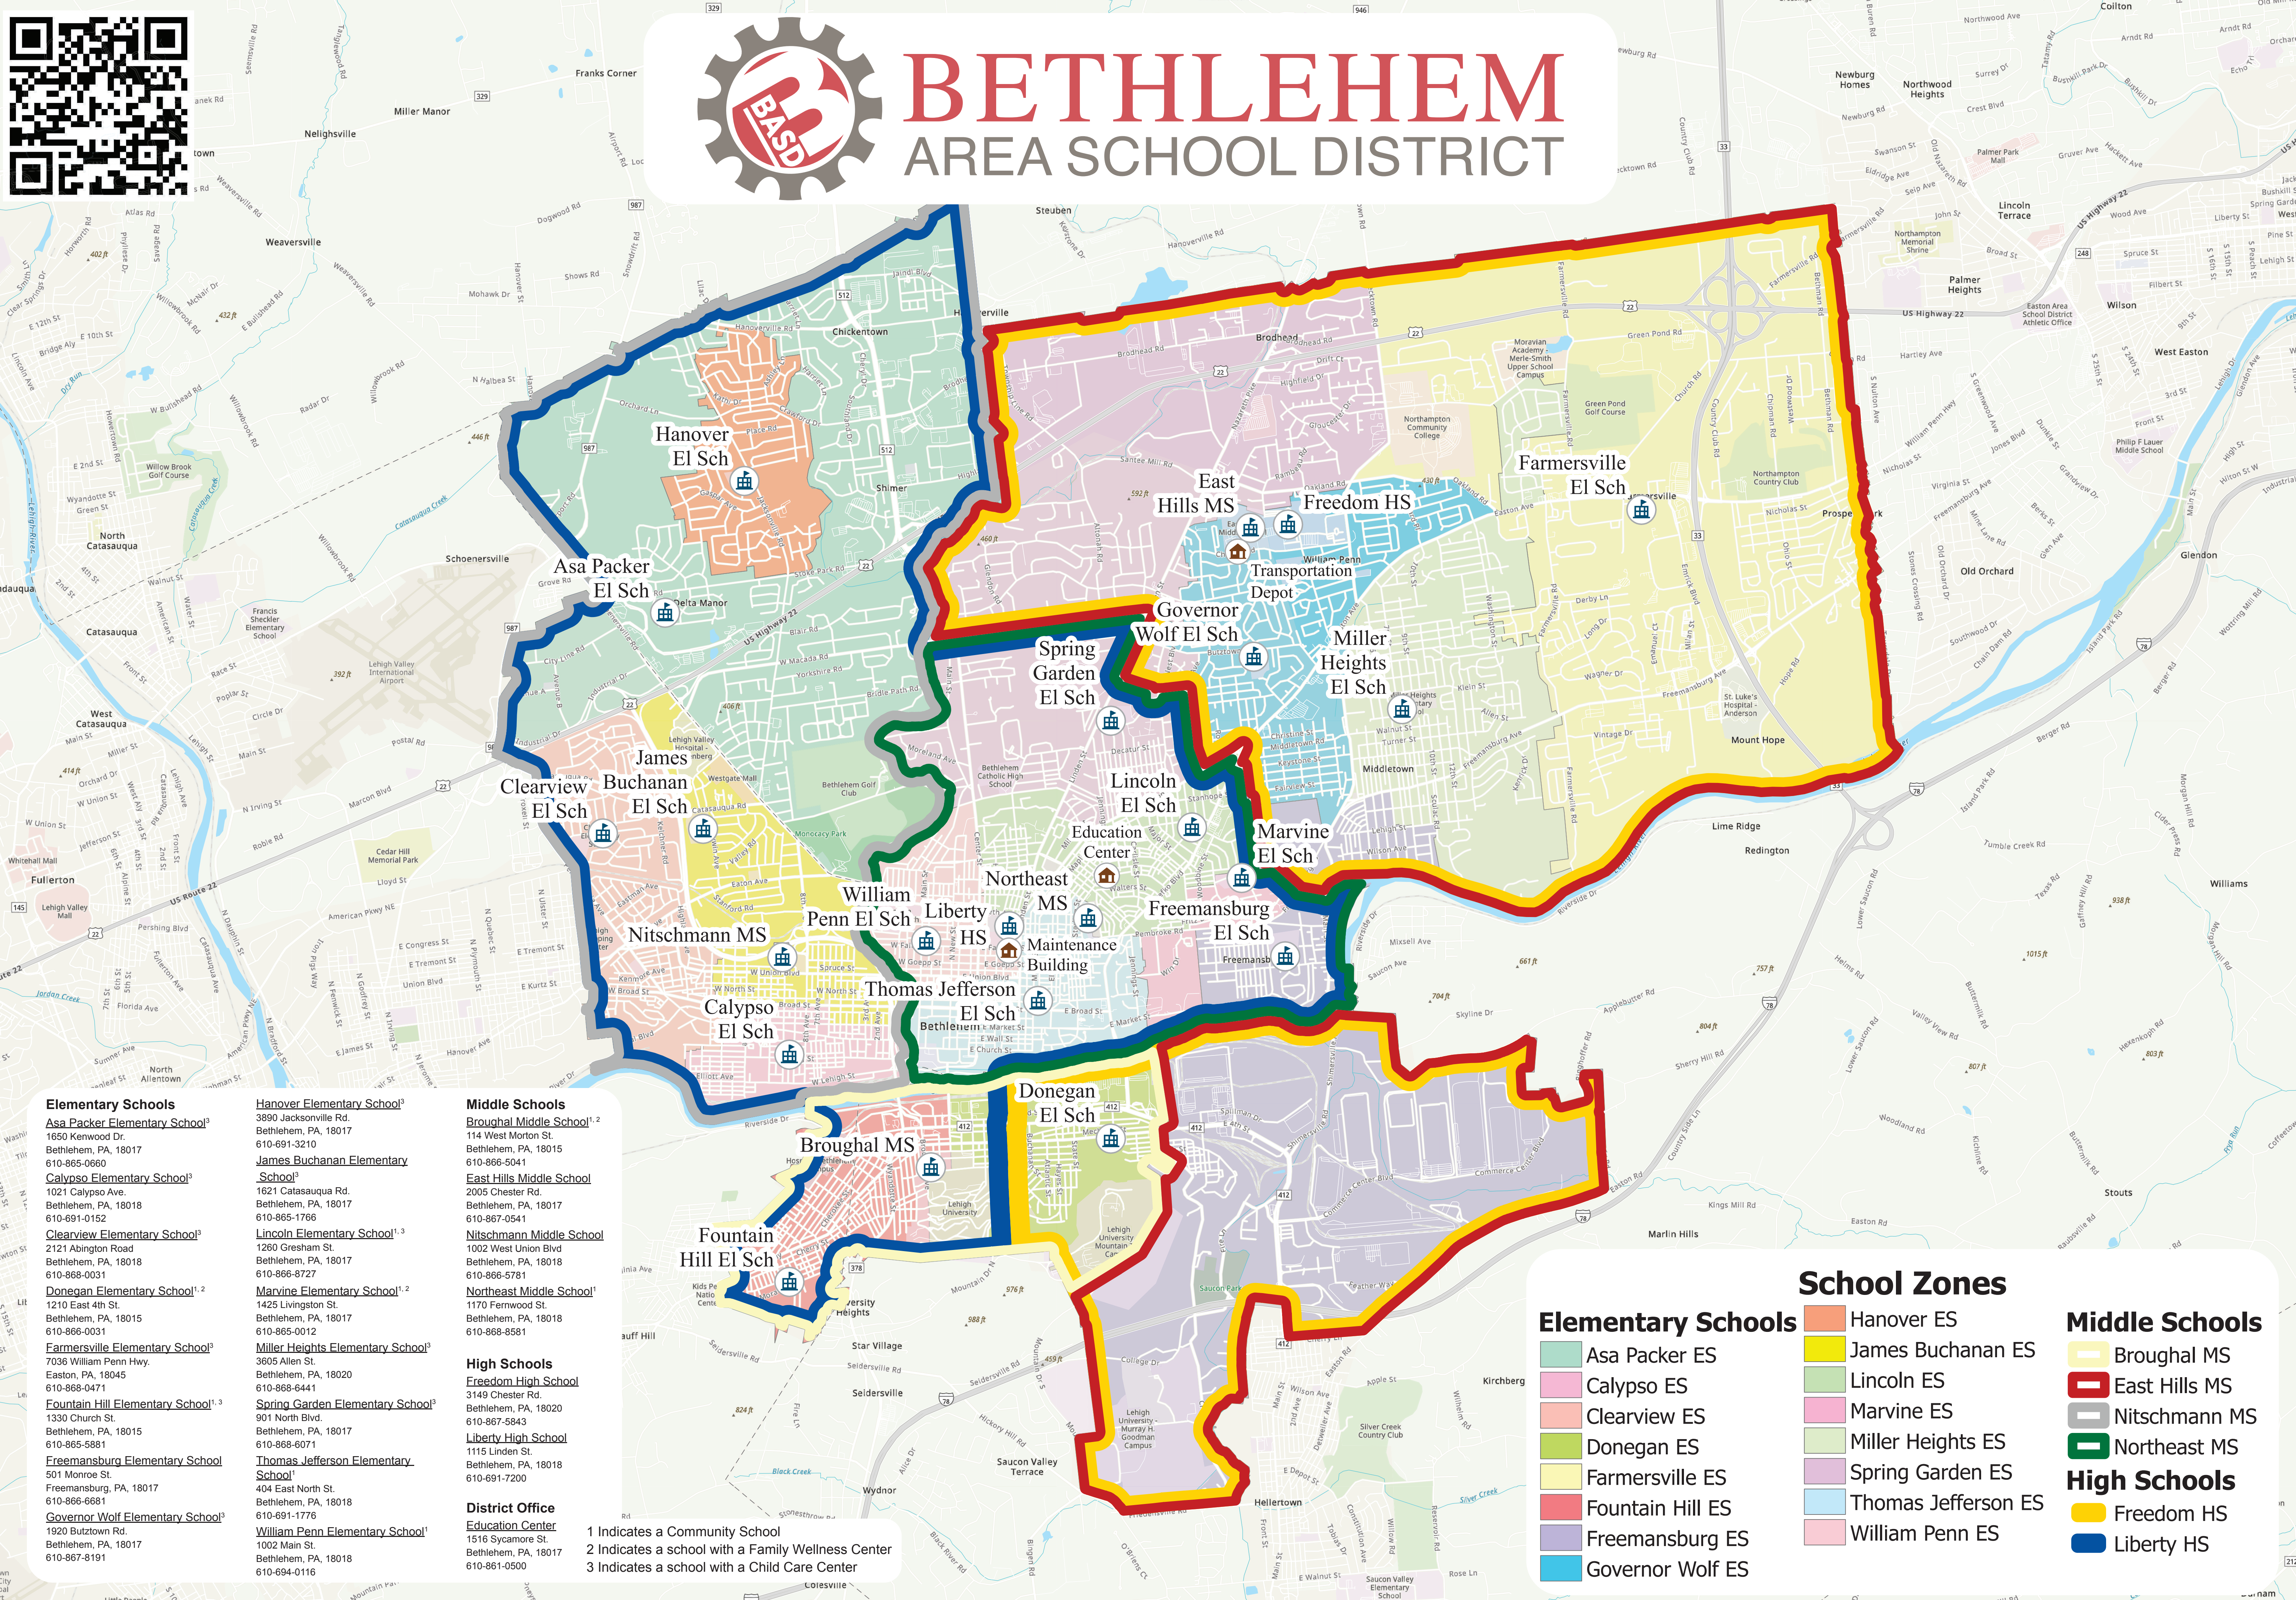

This diversity creates opportunities for connections across all walks of life and prepares students for participating in a global economy. Students have the best of both worlds at BASD: a large district with many opportunities and small communities where students can find their niche.
